Subject: Funding Support for Research on "Layered Approach for Triple Watermarking of DICOM Images Using DWT and SVD for Role-Based Access Control"

Dear Sir/Madam,

We are pleased to express our interest in supporting the research work led by Mr. Saurabh Verma, a student at your esteemed university, on the topic "Layered Approach for Triple Watermarking of DICOM Images Using DWT and SVD for Role-Based Access Control."

This research aligns with our focus on enhancing the security of medical imaging and will directly benefit healthcare providers by ensuring the confidentiality and integrity of patient data.

In recognition of the importance of this research, Sanya Prime Diagnostic Center, Jabalpur, is committed to providing financial support up to Rs.22,000/- (Twenty-Two Thousand) per month till September, 2025 to ensure the success of the Research. We believe that the outcomes will contribute significantly to the field of medical imaging security and have a direct impact on improving diagnostic processes.

Yours sincerely

Dr. Pushpraj Bhatele
Director
Sanya Prime Diagnostic Center
Jabalpur, Madhya Pradesh
